

☆ O ☆ M ☆ TEACHING DIPLOMA TRAINING

Do you sense that part of your Life Purpose is to teach profound spiritual knowledge? To help many understand and handle and the changing times of this Age of Transition and Transformation? And yet right now you may feel that you don't quite know how to present your own deep understandings, or universal knowledge and Light work based upon Oneness and the unfolding Divine Plan for humanity?

No matter how many books we've read or workshops we've attended, in order to share information effectively with others a sound format is necessary to weave all the strands of information together, coupled with workable 'curriculums'.

This is what the new and innovative **OM TEACHING DIPLOMA** training commencing in February 2010 offers those who are serious about their 'calling' to spiritual teaching service and who are ready to make the commitment to become a professionally trained spiritual educator.

For such souls who agree to step forward and undertake this noble endeavour, they could not choose a more worthy cause or a better way to serve humanity and our Father-Mother God's Divine Plan.

WHY NOW?

With the fast approaching focal point of 2012 and all its associated speculation, there is a real need for sound, grounded information based on reliable sources to answer the concerns and aspirations of so many awakening people around the globe. The timeless Ancient Wisdom Teachings provide such a proven foundation source and are now being explained and validated through today's leading-edge research and the new sciences of quantum physics, Zero Point Energy Field and Epigenetics to name a few.

To this end, we shall be offering co-ordinated programmes around the country – **'SOS - PREPARING FOR 2012'** (SOS - Serving Our Souls) throughout 2011, and **'SOS - BEYOND 2012'** programmes throughout 2012 itself.

And for this we shall need a number of professionally trained and prepared teachers in different areas – and some who would like to travel to different areas!
